About me

I am a very social person. I genuinely enjoy talking with people, whether it's a deep conversation or just light-hearted small talk. This openness tends to help me make friends quickly, especially in new situations. I connect with people easily and like to think I'm pretty approachable.

On top of that, I struggle to sit still for long. I always need something to pour my energy into, a hobby, a project, or just something to work toward. If I find something that truly grabs my attention, I go all in. I get completely absorbed in a project I care about and giving it everything I've got.

Education

BSC SOIL WATER ATMOSPHERE | 2021-2025 | WUR

MSC GEO-INFORMATION SCIENCES | 2025-CURRENTLY | WUR

Work experience

OPEN DAY LOCATION COORDINATOR FORUM | WUR | 2022 -CURRENTLY (3 JAAR)

Between two and three times a year I organize the WUR open days on location form. In this function I am the head organizer for everything location Forum. Which is the main building during the open days, hosting two separate info markets, many informative lectures and a whole scala of side activities like campus tours and the student associations. I also arrange everything surround the build up and clean everything up at the end with a group of helpers. This really puts me in the function as a delegator. I really like this work and have become quite proficient in it over the years.

CHAIRMAN OF THE BOARD | PYRUS | 2023-2024

I did a board year at my study association, in which I had the position of chair. In this position I was the face of the association, being social and present at association internal activities and external meetings. Also I led and supported the board in all their functions and responsibilities, I made sure to always had a clear understanding of what they were working on, helped where needed and made sure everything was running smoothly.

ESCAPE ROOM BEGELEIDER | ESCAPE ROOM WAGENINGEN | 2022 - 2025

PROGRAM COMMITTEE BSC SOIL, WATER ATMOSPHERE | BSW | 2022 - 2025

I used to be part of the decision organ of my BSc program. In this position I was directly responsible for all decision making surrounding my BSc (together with 7 other lectures and students). This gave me great insight into the functioning of large companies and decision making. I wash very active in this committee and always did my preparation work properly and always made sure to have well thought out opinions and ideas.
